There will also be a carbine match at 5-10 December 2017 Talladega 600 match.

CMP TALLADEGA MARKSMANSHIP PARK:

The CMP began planning construction of the new Talladega Marksmanship Park in 2012 and completed the installation of electronic targets on the range in 2015. The Park has a 13,000 sq. foot Club House with classrooms, offices, and ADA compliant restrooms. Containing over 500 acres of the finest public facilities in the nation, competition and practice take place on state of the art electronic targets that allow

participants and spectators to view groups and scoring via electronic monitors. Sporting clays, 5-stand, and trap are shot using swipe card technology – utilizing fully automated trap machines.

KONGSBERG ELECTRONIC TARGETS:

All firing will be completed on Kongsberg Electronic Targets (KTS). The KTS system, installed at the 100 yard line registers each shot and relays the location and score value to a monitor beside each shooter on the firing line. All target operations, including final scoring, will be controlled from a range center command booth.
