The Civilian Marksmanship Program (CMP) Talladega Marksmanship Park and South Competition Center invites you to participate in its **CMP Mt. Cheaha Pistol Challenge 2017** on Friday-Saturday, 9-10 June 2017. This match is open to the public; new or experience shooters are welcome. This match features a 60 shot air pistol, 60 shot 50 meter .22 pistol, .22 pistol 900 aggregate, centerfire pistol 900 aggregate and silhouette pistol events.

CMP TALLADEGA MARKSMANSHIP PARK:

The CMP began planning construction of the new Talladega Marksmanship Park in 2012 and completed the installation of electronic targets on the range in 2015. The Park has a 13,000 sq. foot Club House with classrooms, offices, and ADA compliant restrooms. Containing over 500 acres of the finest public facilities in the nation, competition and practice take place on state of the art electronic targets that allow participants and spectators to view groups and scoring via electronic monitors. Sporting clays, 5-stand, and trap are shot using swipe card technology – utilizing fully automated trap machines.

CMP COMPETITION CENTER SOUTH:

The CMP constructed the new Anniston Competition Center in 2008 and completed the installation of electronic targets on the range in 2009. The Center was remodeled in 2016 to up date the common area with classrooms, offices, CMP store and ADA compliant restrooms. The facility features a 20,000 sq. foot state-of-the-art air gun range. The Competition Center has 80 firing points, all equipped with KTS electronic targets. All shots are instantly displayed on monitors beside each shooter and on display screens visible to spectators in the center area of the range. All scoring is

controlled by a computer operations center in the middle of the range. Air tanks and CO₂ are available at the range, but please bring your own adapters.

KONGSBERG ELECTRONIC TARGETS:

All firing will be completed on Kongsberg Electronic Targets (KTS). The KTS system registers each shot and relays the location and score value to a monitor beside each shooter on the firing line. The targets down range will raise and lower for the desired distance from behind the firing line. All target operations, including final scoring, will be controlled from a range center command booth.

SAFETY RULES:

The use of ECI's (Empty Chamber Indicators) in all pistols is required at all CMP locations. The ECI is a brightly colored safety flag that is inserted into the chamber of the firearm. ECI's provide visual confirmation that firearms are unloaded. ECI's must be inserted after pistols are uncased and when not firing or in preparation period. ECI's will be available for sale on the range for those that do not have them.

Range Safety Briefing-

A CMP range safety card is mandatory to fire on the CMP Talladega range. Range safety cards are received after taking the safety class at the CMP Park Club House. Classes will be held every morning before the relays begin firing.
