**INVITATION:** The 4<sup>th</sup> Annual Talladega 600 will begin Tuesday, December 4, 2018, and conclude Sunday, December 9, 2018, at CMP's Talladega Marksmanship Park. The event schedule has been redesigned to appeal to rifle, pistol and shotgun enthusiasts alike in order to provide an even wider variety of marksmanship opportunities to competitors from around the country. Each firing point of the 500-acre facility is equipped with a state-of-the-art, KTS electronic target and scoring monitor. At the 200/300/600 yard range the targets down range will raise and lower for the desired distance from behind the firing line. All target operations, including final scoring, will be controlled from a range center command booth.

Rules for Electronic Target Scoring are available at the following link: <http://thecmp.org/wp-content/uploads/ESTScoringRules.pdf>.

**SQUADDING & RELAY ROTATION:** Your firing point and relay assignments will be selected randomly for all matches and will be issued at check-in. If you are sharing equipment and need to be squadded with another competitor you will need to let us know during online registration.

Relays 1 will shoot first and relay 2 will verify. Then relay 2 will fire and Relay 1 will verify.

**RIFLE INSPECTIONS:** All firearms, to be used in any CMP Games or CMP Service Rifle event, are **required** to be inspected by a CMP sanctioned armorer prior to any live fire at every event. Competitors will be required to present all applicable scorecards to the CMP Armorer in order to complete the inspection process. To expedite the inspection process, competitors are requested to apply their competitor label to each score card. Please include the last **four** digits of the serial number for the firearm to be used in the bottom right hand corner of the scorecard. Upon completion of the firearm inspection process, each scorecard will receive a stamp of approval from the CMP Armorer, indicating that no safety violations or rules compliance issues were **observed** at the time of inspection. Each rifle will also receive an inspection tag, verifying participation in the inspection process. Any inspection tags from prior events are to be removed at the time of inspection.

Upon conclusion of firing, any scorecard received by CMP staff which **does not bear** the CMP Armorer's stamp, will be entered as "**Out-of-Competition**". To accommodate unforeseeable circumstances, competitors will receive a 30 minute window after completion of firing in which a fired rifle may still be inspected.

This enhanced inspection process will aid in ensuring match compliance, as well as promote the safest experience that CMP can provide for all participants on our firing line. Please be advised that CMP Armorer's are operating in an advisory role and **cannot absolutely certify** the safety or compliance of all firearms in the time provided. It is still the responsibility of each competitor to ensure compliance with all CMP mandated safety regulations and match rules. The Armorer's stamp will not serve as an alibi in the event that a violation is found before, during, or after participation in a match.

**AMMUNITION:** Ammunition will not be issued to competitors (except for the M16 Match). Competitors will have the option to purchase ammunition upon arrival or bring their own safe good quality ammunition. Competitors need to bring their scorecards with them to purchase ammunition.

**ALIBIS--CMP GAMES ONLY:** No alibis or re-fires because of rifle or ammunition malfunctions are allowed during any stage of these matches. It is important that your rifles be clean and in good working condition to prevent malfunctions.

**SPOTTING SCOPES & OTHER EQUIPMENT:** Competitors and scorers may use spotting scopes for shooting and scoring. Scopes do not need to be turned away from the target during the rapid-fire stage. Cloth, canvas or leather shooting jackets may be used, except in the Rimfire Sporter Match where shooting jackets or other special shooting clothing may not be worn. Standard military-issue web or leather slings or slings of this same type are permitted. Shooting gloves or mitts and ground cloths or shooting mats may be used. All competitors and range personnel are required to bring their own personal hearing and eye protection and are strongly urged to wear them whenever shooting takes place.
