

2025 National Matches Air Gun Events Program

Camp Perry, Ohio
Gary Anderson CMP Competition Center
July 14 – August 5, 2025

The Civilian Marksmanship Program (CMP) invites you to participate in the 18th annual National Matches Air Gun Events. These events are part of the National Matches at Camp Perry. Their purpose is to offer additional training and competition opportunities for National Matches pistol and rifle competitors as well as for anyone who wants to shoot in the National Matches with their air pistols or air rifles. All of these events will take place at the Gary Anderson CMP Competition Center (GACCC).

The GACCC has 80 firing points equipped with Megalink 3D scoring electronic targets. All shots are instantly displayed on monitors beside each shooter and on display screens visible to spectators in the center area of the range. All firing is controlled by a computer operations center in the middle of the range. The matches can be shot as athletes come and go. The targets can also be viewed on Megalink's website from the CMP Webpage when the range is open and the targets are live. All scores will be uploaded to the CMP's Competition Tracker website.

RULES

The National Matches Air Gun Events are governed by the CMP Air Rifle and Air Pistol Competition Rulebook and the CMP Highpower Rifle Competition Rulebook. No Scopes Allowed in competition.

EQUIPMENT

The CMP offers a selection of air rifles and air pistols for rent for a fee of \$5.00. Sporter Air Rifles are no extra charge as well as shooting mats, blocks and rests. Competitors may bring their own air rifle or air pistols that shoot no more than 600 FPS.

Some of our matches are designed to require minimal equipment, such as the bench matches. Highpower shooters are encouraged to bring their equipment in that they would need to shoot the AR15 Challenge.

Clear Barrel Indicators (CBI) are required for all air guns. The CBI is a length of string trimmer line that is inserted through the bore, with ends protruding from the muzzle and breech ends of the barrel. CBIs provide visual confirmation that the rifle/pistol is unloaded. CBIs must be inserted as soon as air rifles or pistols are uncased and must remain inserted at all times except when actively firing. CBIs are available at the range for those that do not have them.

Compressed air is available at the range for anyone who needs to fill cylinders. Please bring your own fill adaptor.

Spotting scopes are not needed as we have electronic targets. Scopes on rifles and pistols are not allowed for competitions but are allowed for practice.

RESULTS

Results are uploaded to Competition Tracker (CT) each day. Targets are live when the range is in use and can be viewed online.
