

Learn something new

Whether you're a seasoned marksman or have never held a firearm before, our simulators are designed for you.

Featuring a wide variety of target range and other detailed scenarios, the simulators bring firearms training right to your fingertips through rifle, pistol and shotgun configurations. Choose between a set of static firearms or add CO2 enhancements for an extra kick – all offered in a safe, monitored setting.

The simulators are available to the public each week (ages 10 and up) and can even be rented for private use for serious training, a family-friendly gathering or for your next company outing. The possibilities are endless, and so is the enjoyment.

JOIN US EACH MONTH FOR VIRTUAL LEAGUES!

Combining firearm education and fun

Using innovative video gaming technology and safe, modified firearms – experience authentic training in an exciting and entertaining environment.

CMP's simulators are located within the Gary Anderson CMP Competition Center and powered by Laser Shot® projection technology.

CMP INDOOR SIMULATOR

Practice firearm safety and precision through hundreds of virtual scenarios with the Civilian Marksmanship Program

Training Made Easy

How It Works:

- Decide which firearm you'd like to use.
- Choose your course on the projection screen, using the firearm as the game controller.
- Calibrate the firearm sights on the screen.
- Enter the course, and enjoy!

CHOOSE FROM:

- M4 Rifle
- M17 Pistol
- Shotgun
- Highpower Rifle
