WAR DEPARTMENT
OFFICE OF THE CHIEF OF ORDNANCE
INTRAOFFICE MEMORANDUM
Aitchison/mgs
4127

DATE: 4 September 1944

FROM: Mr. John F. Aitchison, Small Arms Division, Rifle Branch

TO: Major N. G. F. Nielsen, Small Arms Division, Chief, Rifle Branch

1. The following information is forwarded relative to identification markings which have been made applicable on components of U. S. Rifle, Cal. .30, M1903.

2. In accordance with 2nd incorsement dated 29 April 1942, the location of manufacturer's identification mark is not to be included on Ordnance drawings but is left to the discretion of the Contracting Officer. However, of recent date, it has been deemed advisable to establish an identifying mark on components procured on A.S.P. or F.S. replenishment allocations. Provided this office wishes to be assured of such an identity, it is suggested that Springfield Armory be requested to incorporate definite information relative to such marking on the particular component drawings.

3. Listed below are the facilities or sub-contractors with identification markings authorized by this office upon request from the District Office:

4. Your attention is invited to File O.C. 474.8/1594 from this office dated 16 December 1942 in which Springfield Armory was requested to eliminate letters R, W, WRA, and SC from identification marks of different heats of steel. This was in order to avoid confusion with facility's identification mark.
